

Oral Health Update

Michigan Breath Clinic Provides Defensive Cure for Offensive Breath.

THE MICHIGAN BREATH CLINIC, Lansing, Michigan, provides new hope for millions who suffer from chronic, severe Oral Malodor. According to the Clinic's founder, Christopher E. Kazor, D.D.S., M.S., Ph.D., most people are surprised to discover that the tongue is the culprit.

"My 16 years of research discovered and classified 60 new species of bacteria on the tongue surface," says Kazor. "Until now, people were only able to cover up the symptoms with mouthwash, mints and gum. Now we effectively treat the cause of the odor."

"His ground-breaking research and resulting protocol ... virtually eliminate oral malodor."

Dr. Kazor's ground-breaking research examined bacterial proportions before, during and after treatment. The result was the development of a highly effective protocol that virtually eliminates oral malodor in patients studied for more than two years. The Michigan Breath Clinic utilizes the most sophisticated diagnostic equipment available to effectively diagnose, educate and treat patients afflicted by this embarrassing, common—and now treatable—oral condition.

Dr. Kazor founded The Michigan Breath Clinic at the University of Michigan School of Dentistry in 1994. Since then, hundreds of patients worldwide have sought treatment for severe Oral Malodor.

About Dr. Kazor

DR. CHRISTOPHER KAZOR is the first person in the world to receive a Ph.D. in the study of the microbiology and treatment of bad breath, also known as *Oral Malodor*. Born, raised and educated in Michigan, Dr. Kazor is a native of the small waterfront community of Fair Haven on Lake St. Clair.

He studied at the University of Michigan for 16 years, receiving a B.S., D.D.S, M.S. in Periodontics and a Ph.D. in Oral Health Sciences. An internationally recognized expert in the field of Oral Malodor, Dr. Kazor has spoken around the world.

A founding partner in the Lansing-based periodontic practice of Progressive Periodontics, P.C., Dr. Kazor is a Diplomate of the American Board of Periodontology, the highest certification in the field of Periodontics and Implantology. He is also certified through the Misch Implant Institute for Advanced Grafting Procedures and Dental Implant Placement.

He resides in Howell with his wife, Sandra, and their son.
